1. /EU HORIZON 2020*/ Europäische Forschungsförderung für Kooperationen zwischen Wissenschaft und Wirtschaft, Termin: 19.06.2017, 13:30-15:30 Unibibliothek Magdeburg

/EU-Hochschulnetzwerk Sachsen-Anhalt, EEN Sachsen-Anhalt/ Forschende, ManagerInnen und EntwicklerInnen, die interessiert sind an europäischer Forschungsförderung, Internationalisierung und Transfer erfahren in der Veranstaltung, wie das Netzwerk und andere Akteure sie bei der Antragstellung im Rahmen des Programms „HORIZONT 2020“ unterstützen und gemeinsame Anträge initiieren und durchgeführt werden können.

Es wird gezeigt, welche Ausschreibungen aktuell veröffentlicht sind und welche praktischen Beteiligungsmöglichkeiten bestehen.

Im Mittelpunkt des Tages stehen Erfahrungsberichte von Vertretern aus Wissenschaft und Wirtschaft darüber, welche Vorteile sich für sie aus derartigen Forschungsk Kooperationen ergeben haben, welche Hürden sie zu bewältigen hatten und welche Lehren sie aus den Prozessen gezogen haben.

Zudem besteht die Möglichkeit persönlich mit den Experten des EU-Hochschulnetzwerks sowie des Enterprise Europe Network ins Gespräch zu kommen, die Ihnen mit Rat und Tat bei der Entwicklung Ihrer konkreten Projektidee zur Seite stehen.

Wir würden uns sehr freuen, Sie auf der kostenfreien Veranstaltung begrüßen zu dürfen.

2. /EU HORIZON2020/ ERC Advanced Grants, Termin: 31.08.2017

/EU HORIZON2020/Advanced Grants are designed to support excellent Principal Investigators at the career stage at which they are already established research leaders with a recognised track record of research achievements. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal.

Size of ERC Advanced Grants

Advanced Grants may be awarded up to a maximum of EUR 2 500 000 for a period of 5 years. The maximum award is reduced pro rata temporis for projects of a shorter duration. This does not apply to ongoing projects.

However, up to an additional EUR 1 000 000 can be requested in the proposal to cover (a) eligible "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant, and/or (b) the purchase of major equipment, and/or (c) access to large facilities. As any additional funding is to cover major one-off costs it is not subject to pro-rata

temporis reduction for projects of shorter duration. All funding requested is assessed during evaluation.

Profile of the ERC Advanced Grant Principal Investigator

ERC Advanced Grant Principal Investigators are expected to be active researchers and to have a track record of significant research achievements in the last 10 years which must be presented in the application. There is little prospect of an application succeeding in the absence of such a record, which identifies investigators as exceptional leaders in terms of originality and significance of their research contributions.

3. /Sonstiges/ ERAnNet: GEOTHERMICA, Call for proposals, Deadline: 10 July 2017 (13:00 UTC)

GEOTHERMICA ERA-NET Cofund (GEOTHERMICA) is a five-year action financed under the European Union's Horizon 2020 Programme for Research and Innovation. This action, operating from 2017 to 2021, will build on the work of the Geothermal European Research Area Network (Geothermal ERA-NET) which started in 2012 and ended in November 2016.

ERA-NET COFUND is a new instrument under Horizon 2020, the objective being to support public-public partnerships between Member States and Associated Countries, including joint programming initiatives and joint calls. This project is funded under the Horizon 2020 Work programme 2016-17 «Secure, Clean and Efficient Energy» and the topic «Joint Actions towards the demonstration and validation of innovative energy solutions».

GEOTHERMICA aims to support transnational, collaborative innovation projects in geothermal energy through joint calls and carry out other joint activities which will enhance the coordination of public research and innovation programmes and improve the exploitation of results of the projects funded. This document describes the objectives, scope, and topics of the call, rules for participation and procedures for the submission of proposals for projects

GEOTHERMICA is complementary to calls for proposals issued by the EC under its current and subsequent Horizon 2020 Work Programme, or other available instruments, including the national research programs, planned by the countries involved in GEOTHERMICA.

4. /EU HORIZON2020/ Brokerage Event: EuroNanoForum 2017, Termin: 21.-23.06.2017

/EU HORIZON2020/ Unter der Schirmherrschaft der Ratspräsidentschaft Malta und kofinanziert von Horizon 2020 findet die EuroNanoForum 2017 statt. In der Ankündigung zur Veranstaltung heißt es: "Representatives from industry, research, academia and businesses will discuss the latest developments in nanotechnology and advanced materials and their contribution to European manufacturing. The programme will offer workshops, opportunities for networking and matchmaking, and an exhibition where the latest results of EU funded projects will be shown."

5. /EU HORIZON2020/ Brokerage Event: The European Forum for Industrial Biotechnology and the Bioeconomy - EFIB 2017, Termin: 09.-11.10.2017

/EU HORIZON2020/ The 10th European Forum for Industrial Biotechnology and the Bioeconomy (EFIB) returns to Brussels October 2017 and will attract industry executives committed to a shift towards renewable, biologically-based manufacturing. EFIB is organised by EuropaBio, Europe's largest and most influential biotechnology industry group and Smithers Rapra, global leader in rubber, plastics, polymer and composites information products

6. /EU/ Financial contribution to the functioning of non-governmental bodies, Termin: 15.06.2017

/EU/ Operating grants may be awarded to non-governmental bodies that pursue one or more of the specific objectives of the Health Programme. Operating grants are awarded according to the eligibility criteria established by Article 8(2) of the Programme Regulation and repeated again in Annex III to the present decision.

It is expected that these non-governmental bodies assist the Commission with the information and advice necessary for the development of health policies and the implementation of the Programme objectives and priorities. It is also expected that non-governmental bodies will work on increased health literacy and promotion of healthy life styles, the organisation of science policy conferences and contribute to the optimisation of healthcare activities and practices by providing feedback from and facilitating communication with patients thus empowering them. The Commission also encourages these non-governmental bodies to work together with the European Solidarity Corps, where appropriate.

7. /EU/ Supporting Member States in mainstreaming health promotion and disease prevention in health and educational settings, Termin: 15.06.2017

/EU/ This action aims to communicate the potential of health promotion and disease prevention and health determinants in the Member States and to increase the commitment of public authorities to this topic. A workshop (and a conference) to update knowledge and good practice will be organised, with the participation of the main medical faculties and the Chief Medical Officers of all Member States. The workshop will be preceded by the preparation of a report providing an overview of the current situation in the EU (this document will be updated after the workshop) and it will be followed by a conference. Lifestyle determinants are behind most chronic diseases. They have a major impact on the health of European citizens - from before birth to old age -, on the burden on health systems, and on the productivity of our societies.

By encouraging universities, education regulators and professional associations to include the knowledge about (promotion of) healthy lifestyles throughout the lifespan as part of the curriculum, these subjects can be better mainstreamed in basic medical training, reaching all health professionals and becoming (more) practiced and accepted. This can be achieved during the studies to obtain a medical diploma or through courses, workshops or additional training after graduation.

8. /BMBF*/ CLIENT II - Internationale Partnerschaften für nachhaltige Innovationen, Termine: 30.11.2017 und 31.05.2019

/BMBF/ Im Zentrum der Fördermaßnahme CLIENT II steht die Durchführung anwendungsorientierter Verbundforschungsvorhaben zur Entwicklung und Umsetzung von Technologien, Produkten, Dienstleistungen und Systemlösungen, die speziell an die Partnerländer angepasst sind und zur Bewältigung entsprechender Herausforderungen vor Ort beitragen.

Kooperationen mit ausgewählten Schwellen- und Entwicklungsländern, die interessante Märkte für deutsche Umwelttechnologieanbieter darstellen, stehen im Vordergrund dieser Bekanntmachung. Die jeweiligen Schwerpunktländer der Kooperation, die mit dieser Bekanntmachung vordringlich adressiert werden, sind unter den Themenschwerpunkten (siehe unten) aufgeführt. In Ausnahmefällen ist die Förderung von Projekten auch mit anderen Ländern möglich.

Inhaltliche Schwerpunkte dieser Fördermaßnahme sind nachhaltige Technologien und Dienstleistungen in den Bereichen:

Rohstoffeffizienz und nachhaltige Rohstofftechnologien Schwerpunktländer und -regionen: Südamerika, Kasachstan, Mongolei, Vietnam.

Wassermanagement, Schwerpunktländer: China, Vietnam, Kasachstan.

Klimaschutz/Energieeffizienz, Schwerpunktländer und -regionen: südliches und westliches Afrika Zentralasien sowie Vietnam, Jordanien und Marokko.

Anpassung an den Klimawandel, Schwerpunktländer und -regionen: südliches und westliches Afrika Zentralasien sowie Vietnam, Jordanien und Marokko.

Landmanagement, Schwerpunktländer und -regionen: südliches und westliches Afrika sowie Zentralasien

sowie Vietnam, Jordanien und Marokko.

Nachhaltige Energiesysteme, Schwerpunktländer und -regionen: Afrika, China sowie die Islamische Republik Iran.

Naturrisiken, Schwerpunktreionen: Andenregion, Vorder- und Zentralasien.

Antragsberechtigt sind Unternehmen der gewerblichen Wirtschaft, die zum Zeitpunkt der Auszahlung einer gewährten Zuwendung eine Betriebsstätte oder Niederlassung in Deutschland besitzen, Hochschulen und außeruniversitäre Forschungseinrichtungen, Kommunen und Länder sowie deren Einrichtungen sowie relevante Verbände und weitere gesellschaftliche Organisationen mit FuE-Kapazität in Deutschland.

Förderung: 100%, plus 20% Projektpauschale
zweistufiges Antragsverfahren, Deadline Projektskizze: 30.11.2017 und 31.05.2019

Hauptansprechpartnerin für die Fördermaßnahme CLIENT II ist:
Frau Anke Krüger, Projektträger Jülich, Telefon: 0 30/2 01 99-34 55, E-Mail: an.krueger@fz-juelich.de

9. /Sonstiges/ Förderprogramme für einen Japan-Aufenthalt

/DAAD; Humboldt-Foundation; JSPS/ JSPS Postdoctoral Fellowship (short-term), für Doktoranden und Postdoktoranden

Bewerber:

o Doktoranden: Promotion muss innerhalb der nächsten zwei Jahre nach Förderbeginn abgeschlossen sein.

o Postdoktoranden: Promotion darf zum 1. April des Fiskaljahres, in dem das Stipendium angetreten wird, nicht länger als 6 Jahre zurückliegen.

Alle Fachrichtungen

Teilnehmer des JSPS Postdoctoral Fellowship (standard) sind von der Bewerbung ausgeschlossen.

Dauer: 1 bis 12 Monate

Weitere Informationen:

Doktoranden und Postdoktoranden (mit Aufenthaltsdauer bis 6 Monate):

beim DAAD für einen Stipendienantritt zwischen 01.01.2018-31.03.2018 bis 31.07.2017:

10. /EU/ Action grants to support transnational projects on judicial training covering civil law, criminal law or fundamental rights, Deadline: 25 Okt 2017, 17:00

The objective is to contribute to the effective and coherent application of EU law in the areas of civil law (including consumer law), criminal law and fundamental rights, to judicial ethics and the rule of law, by covering training needs' gaps in these fields. It also targets the specific training needs of court staff.

The priorities of 2017 will concentrate funding on training activities and tools for training providers described below:

1. tackle gaps in cross-border cooperation of training providers, mainly by
 - a) setting up or expanding a network of contact points of training providers (or similar cooperation mechanisms) for lawyers, notaries, court staff/bailiffs, prison and probation staff with the aim of exchanging information on training needs in EU law or implementation of sanctions in respect of fundamental rights and countering radicalisation, opening national training activities to foreign participants, exchange of trainers, finding partners for regional training activities and/or collecting information on training possibilities for the European Training Platform,
 - b) start cooperation among private training providers for legal professions (in particular lawyers), aiming at expanding the offer in EU law training, the implementation of the advice for training providers by DG Justice and contributing to the yearly report on European judicial training by DG Justice,
 - c) preparatory work that will facilitate more recognition of foreign training activities to fulfil training obligations for lawyers (e.g. analysis of gaps of current recognition practice and development of a system to close them),
 - d) cross-border initial training activities (face-to-face activities or exchanges), covering as many Member states as possible, to create a common European legal culture from the start of entering a legal profession (except for newly appointed judges and prosecutors for whom the equivalent activity is funded via the operating grant for the EJTN),
 - e) organising joint study visits to EU courts by legal practitioners (other than judges/prosecutors, already covered by the operating grant for the EJTN) from as many different Member States as possible;
2. tackle gaps in training on EU law for court staff and bailiffs by cross-border training activities on all areas of EU civil, criminal and fundamental rights law relevant for their judicial work;
3. support the training of mainly judges, prosecutors, lawyers and notaries on EU civil, criminal and fundamental rights law, legal systems of the Member States, judicial ethics and the rule of law, knowledge of cross-border IT tools and linguistic skills of legal practitioners in areas with particular added value, in particular via
 - a) seminars with easy linguistic access (for example, by providing interpretation in the languages of all participants, national breakout groups or linguistic programme components) to attract also legal practitioners to cross-border training activities that are reluctant to participate in a seminar in a foreign legal language and therefore have not been reached by previous cross-border training activities,
 - b) cross-border training activities for multipliers, such as judicial trainers or EU law court coordinators, where there are guarantees that the multipliers will pass on their knowledge to other legal practitioners in a systematic way,

c) training activities with participants from at least two of the profession areas judges/prosecutors, lawyers/notaries, courts staff/bailiffs, court experts/court interpreters, prison/probation staff, in order to stimulate discussions across judicial professions about the application of EU law and so to contribute to create a European legal culture across professional boundaries.

For priority area 3), the topics of the training activities could cover EU legislation that recently entered into force and / or demonstrate the interconnection of the different EU instruments relevant in a specific field, such as: family matters, commercial matters, recovery of assets, procedural criminal rights, mutual legal assistance, etc. An evidenced-based needs assessment for the topic of the training activity is essential.

In general, this call supports training of members of the judiciary and judicial staff, meaning judges, prosecutors, court officers, other legal practitioners associated with the judiciary, such as lawyers, notaries, bailiffs, insolvency practitioners and mediators, as well as court interpreters and translators, prison and probation staff. For each priority it is indicated which part of the target group is addressed. Projects must be transnational and involve organisations from at least two participating countries. In addition the training activities implemented by each project must include participants (trainees) from different participating countries.

As far as nothing more specific is indicated in the priorities, this call will fund training activities such as:
Organisation of interactive, practice-oriented seminars (including implementation of training modules created by the European Commission on EU legislation in civil law[1];
Multilateral exchanges between legal practitioners (except for judges and prosecutors whose training bodies are members of the EJTN and may thus take part in the exchanges organised by the EJTN);
Creation of training content, whether for presential learning, blended learning or e-learning, either ready-to-use by trainers or by practitioners for self-learning;
Tools for training providers (for example: train-the-trainers events, tools to support the organisation of training in other Member States, etc.)
